MAKERSPACE PROJECT MENU

Come with a specific project in mind
or pick from our menu of options
and collaborate with other patrons
hanging out in the space.

Process Art

Build creative confidence by making art with a variety of supplies and leave your mark on the world.

Fabrication

Invent something new! Put things together and make rapid prototypes out of paper, cardboard and other available supplies.

Music & Sound Recording

Use our recording equipment to make beats and rhymes or sound effects. Record your own music, an episode of your podcast, or finish up a sound engineering project.

Photography & Video

Produce your own photo shoots or become the creator of the next trending video. We've got the resources to help you shine bright in front or behind the camera.

Graphic Design & Digital Art

Design polished, professional projects using industry standard software like the Adobe Creative Cloud apps and more on Apple computers, iPads, and Wacom tablets.

Game Design

Make games from scratch for digital and physical spaces. Learn gameplay, game mechanics, simple coding and other software to build your own worlds, characters and stories.

Tech Toys

Tap into tech with fun and easy hands-on learning with Little Bits Coding Kit, Arduino, Sphero SPRK+, and more!

Cricut Maker & Laser Cutter

Create your own designs and then cut, engrave, etch or print on wood, cardboard, paper and fabric to create tangible objects.

Modeling & Rendering

Use computer aided design to bring your ideas to life in 2D and 3D. Create models, environments, and characters for animation or 3D printing.

Writing

Tell stories through essays, poetry, scripts and more. Share your work and get connected with others to take your writing to the next level.

WHAT IS AN ORIGINAL PROJECT?

Projects made from scratch
and from your own ideas.

PROJECT IDEAS

ARTS & CRAFTS

Drawing
Painting
Sculpture
Sewing

MUSIC & SOUND RECORDING

Songs
Podcasts
Audiobooks
Voice Overs
